

FOR IMMEDIATE RELEASE

## ScImage and INVIA Partnership Announced

*Providing Seamless 4DM Functionality within PICOM365 Enterprise PACS*

**Los Altos, CA and Ann Arbor, MI – September 14, 2017** – ScImage, Inc. and INVIA Imaging Solutions are pleased to announce their formation of a joint partnership at the American Society of Nuclear Cardiology's 22<sup>nd</sup> Annual Scientific Session. ScImage, an industry leader in scalable web-based image and information management systems, has teamed with INVIA, an industry leader in cardiology imaging software solutions, to enable users of their PICOM365 Enterprise PACS seamless access to 4DM. Users of PICOM365 will now have access to 4DM's advanced quantification capabilities as part of their on-premises, Cloud, or hybrid enterprise solution.

"ScImage's comprehensive PICOM365 imaging system provides enterprise connectivity for all cardiology modalities (Echo Cardiology, Nuclear Cardiology, Stress, Holter, ECG, etc.), full EHR integration and LDAP authentication," said ScImage's founder and CEO, Sai Raya, Ph.D. "ScImage's end-to-end encrypted solution delivers all clinical imaging, third-party visualization, reporting and workflow tools necessary to support remote reading and reporting allowing for access to any image, anytime."

"At INVIA, we are committed to making 4DM widely available to healthcare professionals," said Todd Mitchell, INVIA Product Manager. "INVIA's 4DM for Nuclear Cardiology solution enables physicians to quantify and review a patient's cardiac health imaging in a single, convenient and customizable application. With integration into ScImage's PICOM365 system, physicians can review SPECT images with increased effectiveness and efficiency."

To learn more, visit ScImage in booth 514 or INVIA in booth 223 at this year's American Society of Nuclear Cardiology's 22<sup>nd</sup> Annual Scientific Session held in Kansas City, MO.

### **About ScImage**

Founded in 1993, ScImage remains a customer-first, private company with a mission to provide innovative enterprise imaging solutions to the healthcare industry. ScImage's unique single-database PICOM365 enterprise platform delivers end-to-end imaging workflow for Cardiology, Radiology, Women's Health, Orthopedics, Ophthalmology and more. Scalable from a single physician practice to multi-hospital enterprises, PICOM365 is delivered on premises, in the cloud, or as hybrid - based on user choice. The perfect synchrony created between on-site and cloud resources allows PICOM365 to provide secure VPN-less image exchange solutions among legacy silo systems, cloud users, and various EHR systems. ### **About INVIA**

Based in Ann Arbor, Michigan, INVIA continues to anticipate the demands of nuclear cardiology professionals with the evolution of 4D-MSPECT to 4DM. True to our user-centered philosophy,

FOR IMMEDIATE RELEASE

4DM provides a single environment for the comprehensive analysis of SPECT, PET, and CT image studies with features such as calcium scoring and remote review. INVIA partners with imaging professionals to define the configurable, flexible, and integrated nature of 4DM for image quantification, review, and reporting.
