ScImage Partners with Cedaron for Accreditation and Registry Reporting Software

Industry Leading ACC, STS, NCDR and State/Local Registry Reporting Software Now Available with PICOM365

Los Altos, CA – March 19, 2014 - ScImage, Inc. announced today that it has partnered with Cedaron Medical, Inc. to deliver CardiacCare with ScImage's award-winning enterprise PACS, PICOM365. CardiacCare is an industry leading solution for outcomes data collection and national database participation that eliminates redundant data entry by transferring data collected from HIS, hemodynamics and other remote databases.

ScImage's multi-department PACS, PICOM365, will interface with the Cedaron CardiacCare suite to deliver a combined solution for image management, advanced visualization, structured reporting, and now, a reporting tool for cardiac cath lab accreditation through participation in national databases and state and local registries.

ScImage's Founder and CEO, Sai P. Raya, Ph.D. stated, "The combination of the PICOM365 and CardiacCare will allow us to meet the needs of our accreditation-focused customers. We're looking forward to integrating our full-featured PICOM365 solution for cardiology workflow to automate data import for ACC, STS, NCDR and other state and local registries."

"CardiacCare ensures that data meets the specifications of a wide variety of national databases, state and local registries and alerts users when data must be added, driving efficiency within the institution by eliminating errors during submission. Further, Cedaron's CardiacCare software allows clinical users to compare data outcomes with other practitioners in the registries," said Karen Bond, President and CEO of Cedaron.

About Cedaron Medical, Inc.

Since Cedaron was founded in 1990, the main goal of the firm has been to merge the cutting-edge vision and technical reliability you expect from a much larger company with a small company's dedication to personalized, responsive customer service. Our products are used throughout the United States and around the world. Our clients range from large healthcare institutions to solo provider practices. Cedaron is a marriage of entrepreneurial, medical, technological and marketing expertise.
